

Walk In Bathtubs

Jetted or Air

“Change Your Life with Our Walk-In Bathtub”

“If you've been missing the comfort of a bath simply because it's too hard to get in and out, Our Walk-In Bathtub is perfect for you. Simply walk in, sit down, seal the door, and fill the tub with warm water. It's an ideal way to relax and unwind in comfort and convenience.”

“Water-Tight Door With A Lifetime Guarantee”

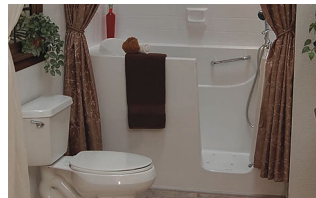

“Cutting edge hydrostatic technology guarantees a water-tight door seal for years of trouble free use. It's an ingenious and simple solution that never needs any special care or maintenance. If the seal ever needs replacing, we will replace it at no cost.”

“Hydrotherapy Systems”

“The thermal and mechanical properties of these systems provide powerful recuperative and healing effects. The body's reaction to the prolonged (no more than 15-20 mins) application of heat and pressure exerted by the motion of water jets or air bubbles is a pleasing and therapeutic sensation. The body's nerves carry the impulses felt at the skin deeper into the body, where they stimulate the immune system, reduce the production of stress hormones, encouraging blood flow and invigorating circulation and digestion.”

- Heated Water & Air Pumps
- Fits into standard bathtub space
- Built In Grab Bar
- Extra wide door for easy access
- Tile flange around top of tub
