

Nature's Little Miracle + Install * Access Charge (if needed) \$121

\$580

Did you know?

- The average family spends over \$1000 per year on bottled water?
- According to MSNBC, 25% of all bottled water is from municipal water supplies!

What can you do?

- Get "Nature's Little Miracle" installed to
- Provide your family with clear, clean, and safe water.

Similar to it's big brother, except...

- Cartridges need replacement once a year on average
- Includes 1 year regular warranty
- Services only one fixture (usually the kitchen sink)

Filter + Install * Access Charge (if needed) \$121

Exclusive 3-step process:

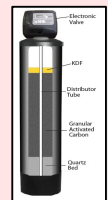

- Mixed media of KDF, Carbon & Quartz

What does this do?

- Removes chlorine
- Removes heavy metals
- Acts as bacteriostat which prevents biological contamination
- "Coconut shell" granular activated carbon – not carbon block
- Meets or exceeds industry standard for chemical removal, chlorine and VOC's
- Quartz acts to remove sediment and maintain proper water flow

There is nothing else like it...

- Adds no salt or chemicals
- Doesn't use any magnetics
- No parts to wear out or replace
- Retains healthy minerals your body needs
- Doesn't lower pH level – and won't make water acidic
- No filter cartridges to replace
- Septic tank friendly
- No brine discharge which is bad for environment
- Includes 5 year warranty

\$5,003

Descaler + Install * Access Charge (if needed) \$121

Why This Is Important To You

Plumbing Fixtures and appliances in your home greatly benefit as well...

- Increases water heater efficiency, reducing energy costs
- Improves water flow and pressure by eliminating scale build-up in pipes
- Adds life to dishwashers and washing machines
- Provides clearly better water at every faucet head and shower head in your home
- Includes 5 year warranty

Scale build-up from hard water is no longer a problem with our Electronic DeScaler!

Once the water has gone through the filtration system, it's ready to travel through our Electronic Descaler which will prevent all the problems normally caused by scale buildup in your pipes caused by Hard Water.

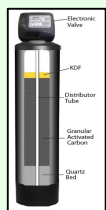

Using high frequency electronic pulses, our system changes the chemical "state" of the calcium and Magnesium... from a "Bi-Carbonate" to a "Carbonate" structure.

This puts the Calcium & Magnesium into a form your body can absorb – but helps eliminate scale build-up in your pipes, plumbing fixtures and appliances.

\$6,679

Filter + DeScaler + Install

Sign up for both and get an Instant Rebate of \$350!
