

Anode Rods

Premier

- **Electrical**

- Ceramic anode has a life of one century for glass lined tanks.
- Has a lifespan 'many times that of sacrificial anodes even in highly corrosive water.'

Qty:

Total:

- Includes removal and disposal of existing anode rod, new anode rod and labor to install new anode rod.

Deluxe

- **Magnesium**

- Creates more driving current to protect tank
- Does not create the clear-jello gunk which aluminum does.
- Does not expand, making servicing much easier.

Qty:

Total:

- Includes removal and disposal of existing anode rod, new anode rod and labor to install new anode rod.

Standard

- **Aluminum Zinc**

- Works better with smelly situations
- Budget friendly
